

Samuel Valiquette

Institution: Department of Mathematics and Statistics, McGill University, Montréal, H3A 0B9

Position: Postdoctoral Fellow in Statistics

E-mail: samuel.valiquette@mcgill.ca * *Website:* s-valiquette.github.io

Education

Joint PhD degree in Mathematics/Biostatistics

Université de Montpellier/Sherbrooke

PhD's degree program

August 2020 - August 2024

Thesis title: [Sur les données de comptage dans le cadre des valeurs extrêmes et la modélisation multivariée](#)

Supervisors: Marchand, É., Mortier, F., Peyhardi, J. & Toulemonde, G.

Joint Master degree in Biostatistics

Université de Montpellier/Sherbrooke

Master's degree program

August 2018 - August 2020

Thesis title: [Théorie des valeurs extrêmes dans le cadre des mélanges de Poisson](#)

Supervisors: Marchand, É., Mortier, F., Peyhardi, J. & Toulemonde, G.

Bachelor's degree in Mathematics/Statistics

Univeristé de Montréal

Bachelor's degree program

August 2015 - August 2018

Work experience

Postdoctoral Fellow in Statistics

Montréal, Canada

McGill University

Since August 2024

Supervisors : Christian Genest & Johanna Nešlehová

BRP

Sherbrooke, Canada

Intern (Master's student)

January 2019 - May 2019

Project: Time series analysis of recreational vehicles

Employment and Social Development Canada

Gatineau, Canada

Intern (Bachelor's student)

May 2018 - August 2018

Project: Statistical analysis of service quality

Division: Analytical research

Statistics Canada

Ottawa, Canada

Intern (Bachelor's student)

May 2017 - August 2017

Project: Master File for graduate students in Canada

Division: Household Survey Methods

Articles

Tree Pólya Splitting distributions for multivariate count data

Arxiv

<https://arxiv.org/abs/2404.19528>

April 2024

Asymptotic tail properties of Poisson mixture distributions

Stat

<https://doi.org/10.1002/sta4.622>

September 2023

Talks

To be announced <i>McGill Statistics Seminars (Invited)</i>	Montréal, Canada January 2025
To be announced <i>Séminaires de STATQAM (Invited)</i>	Montréal, Canada January 2025
Comportement extrême des mélanges Poisson <i>Séminaire du CIMMUL (Invited)</i>	Québec, Canada September 2024
Modèle multivarié discret Tree Pólya Splitting <i>Rencontres scientifiques Montpellier Sherbrooke (Invited)</i>	Sherbrooke, Canada June 2024
Multivariate discrete Tree Pólya Splitting distributions <i>2024 SSC Annual Meeting</i>	Saint John's, Canada June 2024
Comportement asymptotique des mélanges Poisson <i>Semaine des études supérieures - Université de Sherbrooke (Poster)</i>	Sherbrooke, Canada January 2024
Asymptotic tail properties of Poisson mixture distributions <i>2023 Joint Statistical Meetings</i>	Toronto, Canada August 2023
Extreme value theory for the choice of mixture Poisson models <i>52èmes Journées de Statistique de la Société Française de Statistique (Virtual)</i>	Nice, France June 2021
Le Bon, le Standard et le Bayésien <i>Club Mathématique de Sherbrooke</i>	Sherbrooke, Canada January 2019
Le Bon, le Standard et l'Exact <i>Séminaires Universitaire en Mathématiques à Montréal</i>	Montréal, Canada January 2019

Science Popularization

Presentation of graduate studies <i>François-Williams highschool</i>	Saint-Amable, Canada April 2024
A panel of PhD students from various fields presented their perspectives on university life and the benefits of pursuing advanced degrees to high school students. My aim was to make the work of a statistician and the value of higher education in mathematics accessible and engaging.	

Scholarships & Grants

ISM Travel Grant <i>Institut des Sciences Mathématiques</i>	Summer 2024
ISM Graduate Scholarships 2023-2024 <i>Institut des Sciences Mathématiques</i>	Fall 2023
Valorisation des travaux des étudiantes et des étudiants 2022-2023 <i>Université de Sherbrooke - Faculty of Science</i>	Fall 2023
ISM Graduate Scholarships 2019-2020 <i>Institut des Sciences Mathématiques</i>	Fall 2019

Academic Work Experience

Supervisor*Since January 2025*

- Ziyu Zhou: Multivariate Modeling via Tree Pólya Splitting ([MATH 410](#), Winter 2025)

Teaching*Since August 2023*

- [STT 760: Mathematics for Artificial Intelligence](#) (Fall 23, Fall 24)

Teaching Assistant/Corrector*Since August 2018*

- [CQP 201: Linear Algebra and Matrix calculation](#) (Fall 18)
- [MAT 153: Introduction to Linear Algebra](#) (Fall 20)
- [MAT 356: Analytical Geometry](#) (Winter 19)
- [STT 289: Probability](#) (Fall 21)
- [STT 438: Computational Statistic](#) (Fall 22, Fall 23)
- [STT 563: Linear Statistical Model](#) (Winter 21, Winter 22)
- [STT 760: Mathematics for Artificial Intelligence](#) (Fall 21, Fall 22)

Service and leadership

- Co-organizer, alongside [Mehdi Dagboug](#), of the [McGill Statistics Seminar](#) for the academic year 2024-2025.
- Executive member (Vice-president) of the undergraduate student union at the Département de mathématiques et de statistique of the Université de Montréal for the academic year 2017-2018.

Technical skills

Programming Languages/Tools	C, C++, Javascript, R, Python, \LaTeX
------------------------------------	--

Language proficiencies

French	Native language
English	Fluent

Research Interests

Multivariate models
 Copulas
 Extreme Value Theory
 Hierarchical Models
 Discrete Data
 Poisson mixtures
 Bayesian Inference
